Content

Fan Heater
with thermostat

- Thermostatically controlled - to keep your room at the optimum temperature
- Two heat settings - for more powerful heating
- Cool air settings - for use in summer
- Overheat protection - for your safety
- Portable - with carrying handle
- This product is only suitable for well-insulated spaces or occasional use

Ceramic Fan Heater
with thermostat

- Compact ceramic fan heater
- Energy-efficient PTC ceramic heating element
- Quick and agreeable warmth
- Ideal to heat a room of up to 5 m²
- Perfect for use at the camping or in your caravan
- 1 heat setting, 500W, ideal for extra heat
- Thermostat, to keep the room temperature at a stable level
- Safe to use thanks to the anti-tilt and overheat protection
- This product is only suitable for well-insulated spaces or occasional use

Ceramic Fan Heater

with thermostat

- Energy efficient PTC ceramic heating element
- Quick and agreeable warmth
- Ideal to heat a room up to 15 m²
- Perfect for at the camping or in your caravan
- 2 heat settings, 1000/1500W, to meet different heat demands
- Thermostat, to keep the room temperature at a stable level
- Fan only setting - turn the heater into a fan during hot summer days
- Overheating protection
- Safe to use thanks to the anti-tilt protection
- Convenient carrying handle permits an easy transportation of the fan heater
- This product is only suitable for well insulated spaces or occasional use

Ceramic Fan Heater

with thermostat and oscillation function

- Energy efficient PTC ceramic heating element
- Quick and agreeable warmth
- Ideal to heat a room up to 15 m²
- Perfect for use at the camping or in your caravan
- 2 heat settings, 1000/1500W, to meet different heat demands
- Thermostat, to keep the room temperature at a stable level
- Oscillation function to evenly spread the warm air
- Fan only setting - turn the heater into a fan during hot summer days
- Safe to use thanks to the anti-tilt and overheating protection protection
- Convenient carrying handle permits an easy transportation of the fan heater
- This product is only suitable for well insulated spaces or occasional use

Warm and cosy

Ideal for small living rooms, bedrooms
but also home office rooms.

**These Nedis® Wi-Fi smart heaters can be used on its own or
in combination with your other Nedis SmartLife devices.
You can adjust the temperature by using the app or with your
favourite voice assistant (Google Home or Amazon Alexa).**

Wi-Fi Smart Fan Heater

with thermostat, app and voice control

- Connects directly to your Wi-Fi so you can control it from anywhere in the world
- Simply set a timer or a schedule for automated heating
- The heater uses the full 1800 W to quickly heat up the room - and when approaching the target temperature it automatically lowers the heating power to 1000 W
- Activate the horizontal pan for optimized air flow throughout the room
- The small footprint makes this powerful heater suitable for small rooms
- This product is only suitable for well-insulated spaces or occasional use

WIFIFNH20CWT

Wi-Fi Smart Tower Fan Heater

with app and voice control

- Connects it directly to your Wi-Fi and control it from anywhere you want
- Set temperature using buttons on top or in the Nedis® SmartLife app
- Activate the horizontal pan for optimized air flow throughout the room
- Simply set a timer or a schedule for automated heating
- Two heat settings (1200 / 2000 watt)
- Thermostat setting (on display and in app): 15 - 35 °C (1 °C steps)
- Suitable for rooms up to 24 m² / 60 m³
- Can also be used as a fan in the summer
- Small footprint of only ø 19 cm and a height of 57 cm
- Overheating protection and falls-over protection
- This product is only suitable for well-insulated spaces or occasional use

WIFIFNH10CBK

Convection Heater

with thermostat

- Programmable digital thermostat
- 3 heating options - 750/1250/2000 Watt
- Overheating protection
- Integrated handles
- This product is only suitable for well-insulated spaces or occasional use

○ HTCO10FWT

Convection Heater

with thermostat and fan

- Programmable digital thermostat
- Turbo-mode
- 3 heating options - 750/1250/2000 Watt
- Overheating protection

WIFIHTPL20FWT

Zigbee Climate Sensor
Works with Nedis® SmartLife

- Measure temperature and humidity wherever you want within a range of approximately 30 m from the Nedis Zigbee gateway (WIFIZBxxx)
- Fully integrates with your Nedis SmartLife application (through the Nedis Zigbee gateway) to combine with other smart products in automations.
- See both live and stored climate information for the last day, week or month in clear graphs
- Battery powered for flexible placement
- Battery lifetime of up to one year

○ ZBHTR10WT

Zigbee Radiator Thermostat
Works with Nedis® SmartLife

- Digital smart self-learning thermostat to keep the temperature in the room at the desired level
- With the integrated LED dislplay and the intuitive knob you can change, monitor and control the temperature directly on the radiator
- Child lock to prevent unauthorized temperature changes
- Control multiple radiators at once so no room is ever forgotten
- Combine with other Nedis SmartLife products to create a more intelligent and energy efficient environment
- Easy installation where no special skills or knowledge is required

○ ZBHTR10WT

Zigbee Gateway

to integrate with Nedis® SmartLife application

- Connect up to 40 Zigbee products to a single gateway
- Zigbee supports instant communication with minimal battery usage
- Integrate this gateway into the SmartLife app to combine Nedis® Zigbee products to any SmartLife product
- USB powered

○ WIFIZB10WT

Zigbee Gateway

to integrate with Nedis® SmartLife application

- Plug-in design for maximum ease of use
- Connect up to 50 Zigbee products to a single gateway
- Zigbee supports instant communication with minimal battery usage
- Integrate this gateway into the SmartLife app to combine Nedis® Zigbee products to any SmartLife product
- Plug-in

○ WIFIZB10CWT

Bathroom Heater

1200W with two heat settings

- 1200 Watt - powerful enough to quickly heat a room of up to 12 m²
- 2 heat settings (600/1200W) - select the heat output to your own preference
- Tiltable head - direct the heat just where required
- Wall-mountable design - saves floor space
- IPX4 rating - this heater can be safely used in a bathroom

12m² **IPx4**

○ HTBA10GY

Bathroom Heater

2000W with thermostat and programmable timer

- 2000 Watt, powerful enough to quickly heat up a space of up to 20 m²
- Adjustable thermostat to set the temperature to your own preference
- Programmable timer so you can set up an on/off schedule for each day of the week, up to 6 programs per day
- Fan-only function to blow air through the room without heating it
- Remote control, for maximum convenience
- LED display so you can see all important settings in a glance
- Open window detection - automatic shut-off when a sudden drop of temperature is detected
- IP22 rating, which makes this heater safe to use in a bathroom

2 **20**m² **IP22**

○ HTBA20WT

Fan shoe dryer
with 4 retractable warm air exhausts

- Wall-mounted fan shoe dryer
- 4 warm air exhausts, to dry 2 pair of footwear at the same time
- Retractable pipes of 17-70 cm for maximum flexibility
- 10-120 minute timer - after the set time, the shoe dryer switches off automatically
- 350W Power, strong enough to supply a firm warm air stream
- Safe to use thanks to the overheat protection

350W

10-120min
